OUR Students

Students within CRSD are supported in their academic achievement by thoughtfully designed learning opportunities that teachers provide for all students. As a result, our students not only remain in school they excel as is evidenced by the number of students who qualify for the Rutherford Scholarship.

Many of our students attend universities outside of Alberta, such as the University of Victoria, Queens, etc., which is not reflected in the transition rate to post secondary results. It should also be noted that many of our students, especially those who are late moving to Canada, choose a graduation route that requires them to complete three diplomas. This provides them with the academic requirements to move on to the world of work or post secondary institutions without having to take four diploma exams.

CRSD continues to provide valuable extracurricular and outdoor learning opportunities for the youth of CRSD by offering Winter Travel, Water Experience, Bow Valley Active Stewardship, Wilderness Inspiring Leadership Development (WILD) Program, and summer CALM. Over the past year, CRSD has expanded these outdoor education opportunities to our elementary schools creating a continuum through all grades.

CRSD Priorities

CRSD priorities are to:

- ✚ Create learning environments that foster academic excellence and develop 21st century skills – critical thinking and problem solving; communication and collaboration; creativity and innovation; digital-age literacy and emotional intelligence.
- ✚ Personalize learning to respond to each child's gifts, needs, interests and aspirations.
- ✚ Help students develop appropriate online choices.
- ✚ Use technology and human connections to bring the world to the classroom and the classroom to the world.
- ✚ Provide teacher directed professional learning networks throughout the district focused on the areas of: numeracy, literacy, diversity and inclusion, coding/makerspace/technology, music, critical thinking, meaningful authentic learning, formative assessment and engagement.
- ✚ Provide increased experiential learning opportunities by expanding the courses offered at the Canadian Rockies Outdoor Learning Centre.

WE'RE Listening

The staff of the CRSD is committed to providing meaningful information to parents/guardians/caregivers and students in relation to the student's school experience. CRSD provides parents with opportunities to be active within their student's school experience and continue to seek input and incorporate their feedback into educational programming

The CRSD Board of Trustees reviews its communications processes and systems to ensure effective communication with the staff, public, parents and students. The Board meets annually with students from across the division to participate in a Student Voice Summit. Through building activities, personal reflections and table discussions, the board is able to gain valuable knowledge and perspective from the students' point of view.

School Councils are involved in the creation of school plans and the sharing of school level results. The Board of Trustees meets collectively with School Councils twice a year to provide them an opportunity for input.

OUR Vision

CRSD continues to offer our public school students a wide range of learning supports, options and a robust community engagement process that provides a huge variety of learning-based clubs and after-school activities with parent and teacher volunteers. We've been able to bolster our Maker Spaces in a number of schools, and through dedicated parents, introduce high-level robotics and technology (non-credit) learning opportunities at the high school level.

Our entrepreneurial spirit has led to growth in both our International Student Program and our Outdoor Learning Centre, both of which operate outside of the provincial funding allotment but generate additional funds for our division, which allows us to offer a broader range of programming and opportunity to students from other countries and other communities within Alberta.

CRSD continues to partner with Stoney Education Authority (SEA) to design worthwhile and meaningful learning for students and share professional learning opportunities between authorities.

Our focus for the coming year will be on preserving what we have managed to achieve as one of the smallest rural divisions in the province and expand our educational offerings where possible.
