

## **205 FOUNDATIONAL INSTRUCTIONAL PROGRAM**

### **Background**

The Principal shall ensure that the instructional plan of the school(s) provides a level of program suitable to the needs of each student. The Division recognizes that the professional staff in the school division must meet all Alberta Education requirements with regard to instructional programming.

It is also recognized that the foundational program for Canadian Rockies School Division will include a program enriched by our unique environment and reflecting the special expertise of the resources within the community.

A basic objective of the Canadian Rockies School Division is that its students will receive a coordinated and developmental program of instruction in the areas of human relations, cooperation, government, and civics so as to promote a desire to become useful and interested citizens of our community.

It is the philosophy and practice of Canadian Rockies School Division, through all levels of schooling from Grades 1-12, to complement the core subjects with quality courses such as fine arts, CTF, CTS, and Outdoor Education which are a necessary part of a comprehensive educational experience.

### **Procedures**

Each Principal shall ensure that teachers access the appropriate programs of study and related provincial or locally developed resources.
