

March 3, 2020

Dear Parents/Guardians,

CRPS would like to once again reach out and update our community regarding COVID-19. We would like to share that Alberta Health Services is (as of March 2nd) continuing to report that there are no confirmed or probable cases of COVID-19 in Alberta at this time. Alberta Health Services also states that the current risk for people in Alberta is still considered low. For the most up to date information please go to the Alberta Health and Alberta Health Services websites:

- www.alberta.ca/coronavirus
- www.ahs.ca/ncov

CRPS remains diligent in our efforts to work with staff, students and families in relation to hygiene and hand washing; as well as continued focus on cleaning practices throughout our buildings.

Please continue to monitor Alberta Health Services websites for further information.

Sincerely,

Christopher MacPhee
Superintendent of Schools
