**HIGHLIGHTS, PLANS, ASSUMPTIONS AND RISKS SUMMARY- 2021/2022 BUDGET REPORT**

The following were presented to the Board and approved as underlying the budget. These key points and assumptions used in development of the budget take into consideration the economic environment of the jurisdiction, focus on anticipated changes from current year, and are realistic and consistent with the three year Education Plan. At a minimum, they disclose key budget assumptions, financial & business risks, and specific strategies explaining how this budget will support the jurisdiction's plans.

**Budget Highlights, Plans & Assumptions:**

- Assumption that costs associated to COVID will continue into the new school year and this budget takes this into account
- Alberta Education delayed applying certain elements of the new funding model (WMA) which allows the school board to staff to the same levels, this provides stability in the school system while the COVID-19 Pandemic concerns subsides and reduces impacts on the school division.

**Significant Business and Financial Risks:**

- COVID introduces another variable that is inherently more unpredictable in nature than any other variable which makes the budget process more complex
- Determining the outcome of the 21-22 fiscal year due to the COVID factor when trying to maximize available resources is a difficult balancing act
- One significant risk is the uncertainty of enrolments; if they will return to prior levels before the COVID element had an impact on the tourism industry in the Bow Valley.
- With the weighted moving average we are cautiously optimistic that enrolments will return to prior levels to reverse the trend of declining enrolment that COVID had with our division.
