

523 STUDENT INSURANCE

The Division approves the offering through the schools of student accident insurance at no cost to the Board. The specific plan of insurance to be offered in any school year shall be decided by the Division at least one month before the beginning of that school year.

The cost of the basic plan will be incorporated into the school fee set each year by the Division.

The Division recognizes the risk in interscholastic sports and recommends that Principals require participants in these contests to be covered by the aforementioned insurance program.
